# Adobe XD to HTML

Claudia Jacques

Install Web Export in XD

7. Open Adobe **XD**

2. Select **Add-Ons**

3. Select **Plugins**

4. A new screen appears.

**5.** Search for **Web Export**.

6. Click on Install **Web Export**.

7. **Open the XD file** you want to export.

8. **Select the artboard** you want to export by clicking on it.
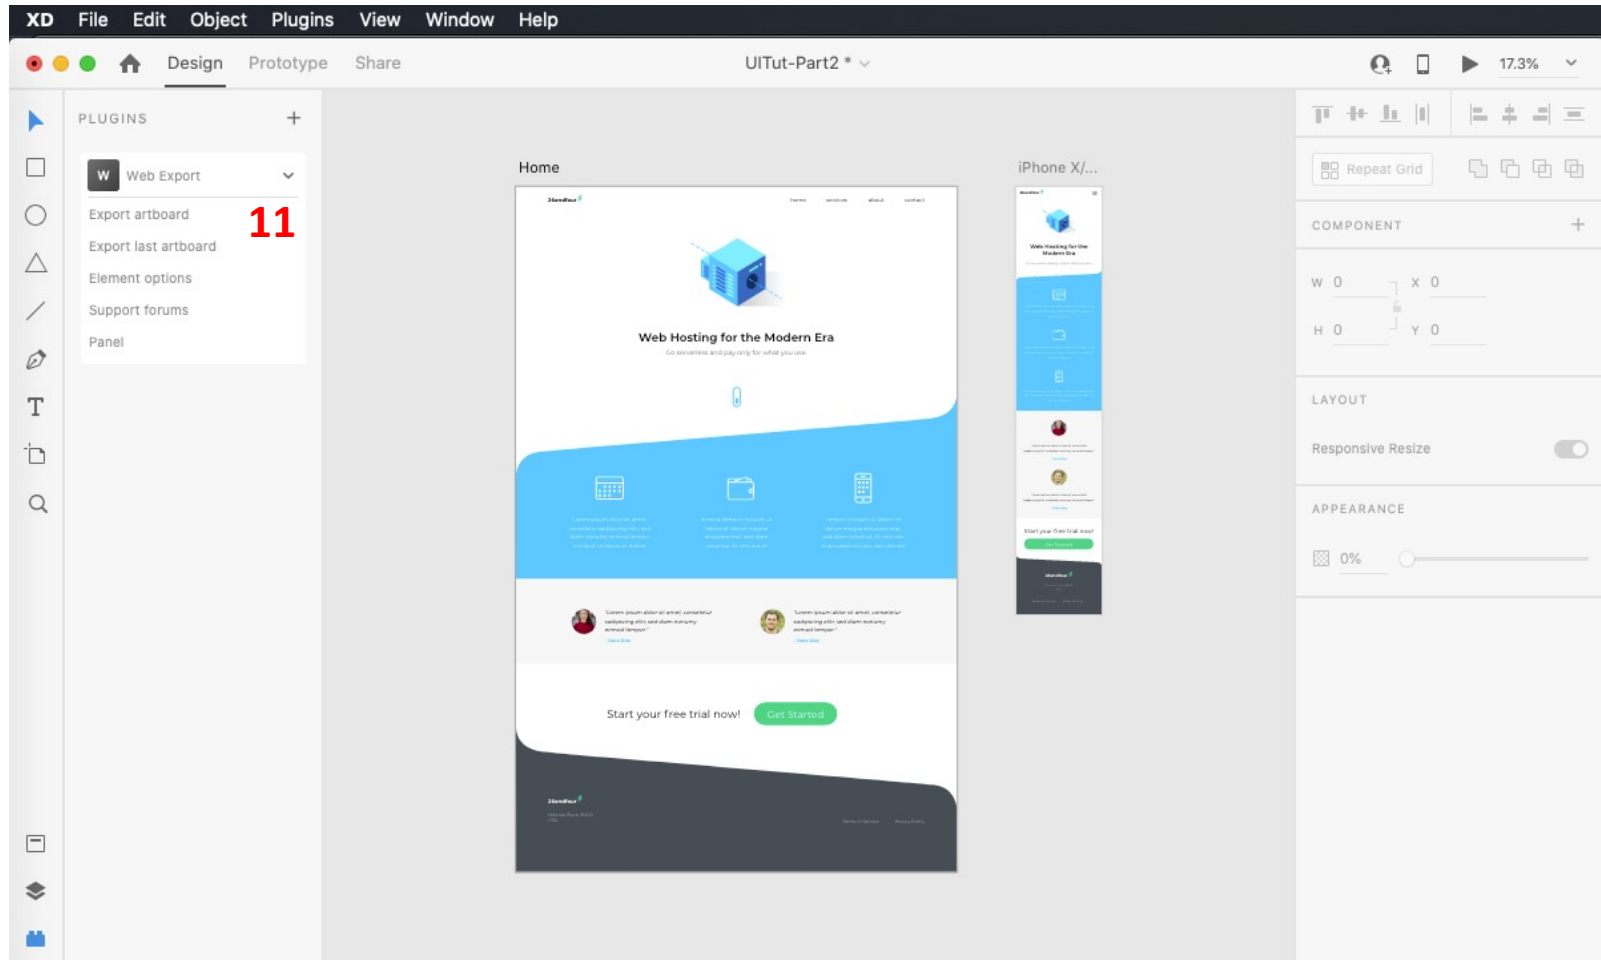

9. Click on the **Plugins icon**.

10. The Plugins panel opens.

11. Choose the **Export Artboard** option from the new **Web Export** plugin settings.

From the same window, you can also choose to export multiple artboards or the last artboard you edited.

12. In the Export Artboard pop-up, **add a page title** (the name that appears in the browser) and the file **name**.

13. Select the folder in which you wish to save the file by clicking on the tiny folder icon next to the Export Folder option.

Export Artboard (live)

Name	**12**	|Page Title	**File Name**
Stylesheet		Stylesheet name (optional)	External stylesheet ☐
Script		Script name (optional)	External script ☐
Export Folder	**13**	**Folder to Save the Exported Files** →
Server		Server name (optional) (ex http://localhost/ or http://127.0.0.1/)
Alternative Fonts		Alternative fonts (optional)

Scale	Default ⌄		Scale on Resize	☐
	Scale on double click	☐	Reset scale on double click	☐
	Show scale slider	☐	Enable scale up	☐
Options	Center Horizontally	☐	Center Vertically	☐
	Set styles inline	☐	Style via classes	☐
	Outline elements	☐	Add data names	☐
